## AZIONI PRINCIPALI

### ECOBODY

Dal 2014, ABK GROUP ha introdotto gli impasti ECO-BODY, formulati con almeno il 40% di materie prime di alta qualità recuperate da lavorazioni interne ed esterne. Questa soluzione, certificata da Bureau Veritas, consente ai prodotti di contribuire al calcolo dei crediti LEED, integrando il design sostenibile degli edifici in una logica di economia circolare.

Consulta l'Elenco degli articoli Eco-Body nell'area download di [abk.it](http://abk.it)

### COGENERATORE

Negli ultimi sei anni ABK GROUP ha destinato oltre 40 milioni di euro a nuovi impianti produttivi ad alta efficienza, tecnologie avanzate per il recupero energetico e soluzioni per la gestione responsabile delle risorse. Tra questi, l'impianto di cogenerazione attivo dal 2019 nello stabilimento di Solignano consente di produrre il 95% dell'energia elettrica consumata in sito, grazie a un sistema che recupera il calore residuo e lo reintegra nel ciclo industriale, riducendo sensibilmente i consumi e le emissioni.

### RIDUZIONE DEI FUMI

ABK GROUP ha adottato un sistema che convoglia i fumi all'interno dell'atomizzatore a oltre 600°C, eliminando le sostanze organiche volatili direttamente in linea, con risultati incoraggianti certificati da monitoraggi trimestrali. Si tratta di una soluzione alternativa ai post-combustori, frutto di due anni di ricerca su materiali e componenti a basso impatto, che ha portato alla sostituzione in fase di decorazione digitale delle colle a base solvente con analoghi prodotti a base acqua.

## MAIN ACTIONS

### ECOBODY

*In 2014, ABK GROUP introduced ECO-BODY formulations containing at least 40% high-quality raw materials recovered from internal and external processes. Certified by Bureau Veritas, this solution allows products to contribute to LEED credit calculations, integrating sustainable building design into a circular economy approach. The list of Eco-Body items can be found in the download area of [abk.it](http://abk.it).*

### COGENERATOR

*Over the last six years, ABK GROUP has invested more than €40 million in highly efficient new production facilities, advanced energy-recovery technologies and solutions for responsible resource management. One of these is the cogeneration plant operating at the Solignano factory since 2019, which produces 95% of the electricity consumed on site. By recovering residual heat and feeding it back into the industrial cycle, the system significantly reduces energy consumption and emissions*

### REDUCING FLUE GAS EMISSIONS

*ABK GROUP has adopted a system that channels flue gases into the spray dryer at over 600°C, eliminating volatile organic compounds directly on the line. The system has shown encouraging results, as certified by quarterly monitoring. This alternative to post-combustion systems is the result of two years of research into low-impact materials and components, leading to the replacement of solvent-based glues with water-based products in the digital decoration phase.*

Le grandi lastre ABK sono un archivio perfettamente organizzato di libertà creativa, in grado di soddisfare molteplici esigenze. Le lastre, oltre ad interpretare perfettamente i materiali d'ispirazione (pietra, marmo, legno, metallo, cemento) incarnano tutti i vantaggi del gres porcellanato: resistenza, praticità, performance, igiene e allo stesso tempo offrono maggiore libertà espressiva alla progettazione. Quella di ABK è un'offerta sempre più vasta e completa che diventa una dichiarazione: "non esistono limiti, ma soluzioni".

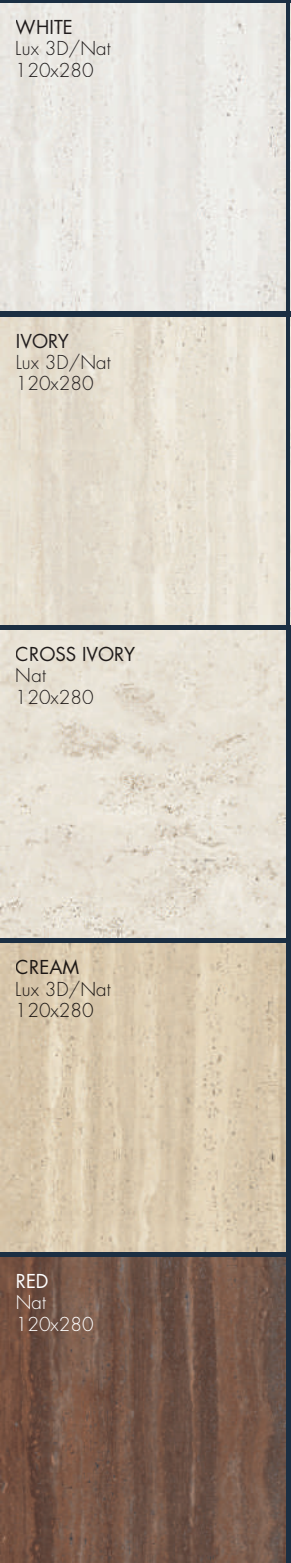

ABK's large slabs form a carefully curated library of creative options capable of meeting a wide variety of needs. As well as faithfully interpreting their source materials (stone, marble, wood, metal and concrete), the slabs offer all the advantages of porcelain stoneware: strength, practicality, high performance and hygiene, while at the same time offering enormous freedom of expression in terms of design. ABK's ever wider, more complete range of products makes a clear statement: there are no limits, only solutions.

# COLLABORAZIONI E LICENZE

Collaborations and licenses

ABK, da sempre attenta alle tendenze, dialoga oggi con designer capaci di innovare nel segno della tradizione, creando superfici uniche che uniscono visione creativa e maestria ceramica. Dalla collaborazione con Paola Navone Otto Studio è nato nel 2021 il progetto Poetry House che continua a trasformare la ceramica in superficie d'autore, mentre dal 2025 ABK produce e distribuisce MOOOI Ceramic Surfaces con il progetto Nesting Room, creato a quattro mani con Moooi, il marchio di lifestyle guidato dalla creatività visionaria di Marcel Wanders.

*Always attentive to evolving trends, ABK collaborates with designers who innovate while remaining rooted in tradition, creating distinctive ceramic surfaces that unite creative vision with ceramic craftsmanship. In 2021, the partnership with Paola Navone Otto Studio gave rise to the Poetry House project, an ongoing exploration that transforms ceramics into expressive, signature surfaces. Since 2025, ABK has also been producing and distributing Moooi Ceramic Surfaces as part of the Nesting Room project, developed in collaboration with Moooi, the lifestyle brand led by visionary creative Marcel Wanders.*

Il design è poesia applicata allo spazio, interpretazione artistica della materia, e non è un caso se i designer italiani sono ammirati nel mondo. Tra questi, Paola Navone, designer, architetto e art director milanese, si distingue per la personalità eclettica e lo spirito libero, aperto a diverse culture. Dalla collaborazione tra ABK e Paola Navone OTTO Studio, nasce POETRY HOUSE, un progetto che esplora esperienze creative, materiali, segni grafici ispirati alle sue opere più iconiche e rappresentative. E' la scrittura di una vera e propria poetica dell'abitare, che condensa il vissuto artistico della designer e la sua storia, portandoli negli ambienti architettonici. POETRY HOUSE intende sottolineare il valore di un percorso progettuale che conferma la presenza di ABK nel mondo del design.

*Design is poetry applied to space, an artistic interpretation of matter, and it is no coincidence that Italian designers are admired all over the world. One of these is Paola Navone, a Milanese designer, architect and art director renowned for her eclectic personality, free spirit and interest in different cultures. A collaboration between ABK and Paola Navone OTTO Studio has resulted in POETRY HOUSE, a project that explores creative experiences, materials and graphic designs inspired by her most iconic and representative works. It is an authentic poetry of living, a distillation of the personal history and artistic experience that the designer brings to architectural spaces. POETRY HOUSE is the first step in a collaboration that will see ABK strengthen its presence in the world of design.*

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH   il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i pi  elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

**Variabilita' cromatica / Shade variation**  
Le superfici Poetry Colors ricreano la sensazione tipica dei prodotti ceramici artigianali, per questo sono caratterizzate da una certa variabilita' cromatica che distingue una piastrella dall'altra. Per ottenere una posa ottimale, si consiglia di stendere preventivamente porzioni di materiale avendo cura di miscelare le diverse tonalità, prima di procedere con l'installazione.  
The Poetry Colors surfaces recreate the distinctive feel of handcrafted ceramic products, which is why they display a certain variation in shade between one tile and another. For the best results, it is advisable to lay out areas of tiling before fixing the tiles in place to ensure that the different shades are mixed up properly.

**Decorati fatti a mano / Handmade decors**  
Le decorazioni SWIM, coerentemente con la visione "handmade" dell'intero progetto Poetry Colors, sono prodotte artigianalmente. Le piccole differenze tra i diversi pezzi ne attestano l'unicità, poiché ogni elemento è realizzato con cinque passaggi serigrafici tutti eseguiti a mano.  
SWIM decorations are artisanal products designed in accordance with the handmade concept underpinning the entire Poetry Colors collection. The small differences between one tile and another mean that every piece is unique and are caused by the fact that the tiles are decorated in five separate screen-printing steps, all carried out by hand.

**Articoli realizzati con metalli / Items produced with metals**  
Si consiglia di pulire la superficie senza utilizzare prodotti contenenti sostanze abrasive per non alterare la brillantezza del metallo.  
Do not use products containing abrasive substances to clean the decorative element so as not to affect the shine of the metal.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.  
The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

La tecnologia PTECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. PTECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali. The unique PTECH technology improves slip resistance while maintaining a pleasant tactile sensation. PTECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, PTECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e in aree pubbliche o commerciali.  
The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness spaces and in public or commercial areas.

# WIDE & STYLE

WIDE&STYLE è il contenitore di lastre decorate che ha reso celebre ABK per la sua vasta gamma di soggetti ad effetto wallpaper proposta in diversi formati che arrivano fino al 160x320.

Oltre agli articoli realizzati mediante applicazione digitale a caldo, il progetto si amplia con FUORIFORMATO, una selezione originale di lastre decorate manualmente e arricchite da metalli preziosi. WIDE&STYLE MINI in 60x120 è entrato a far parte del progetto come soluzione più easy, favorendo l'utilizzo anche in ambienti ridotti o più difficoltosi da raggiungere.

Per visualizzare il progetto nella sua completezza vi consigliamo di consultare le versione aggiornata del catalogo WIDE&STYLE.

*WIDE&STYLE is ABK's renowned collection of wallpaper-effect surfaces, available in a wide range of patterns and sizes up to 160x320 cm.*

*Alongside products created using hot digital application, the range has been extended with the original FUORIFORMATO selection of manually decorated slabs enhanced with precious metals. WIDE&STYLE MINI in a 60x120 cm size has been added to the collection as a more accessible option ideal for smaller rooms or hard-to-reach spaces.*

### ON DEMAND

Questa sezione contiene tutte le varianti che per molteplici fattori debbono essere necessariamente prodotte su ordinazione. I suddetti articoli si distinguono per l'impiego di coloranti particolarmente saturi e brillanti, piuttosto che per l'applicazione di smalti preziosi o semplicemente perché devono essere prodotti con un'attenzione particolare per garantire la perfetta continuità dei disegni tra una lastra e l'altra.

*This section includes all products that for various reasons have to be made to order. These items stand out for the use of highly saturated and vivid colours, for the application of premium glazes, or simply because they have to be produced with special care to ensure the perfect continuity of designs from one slab to the next.*

### READY TO ORDER

È la selezione di proposte che ABK è in grado di gestire all'interno delle proprie linee produttive; pur offrendo sorprendenti effetti decorativi, declinati in superfici lucide e satinare, le lastre READY TO ORDER si distinguono anche per un ottimo rapporto qualità/prezzo.

*These are the designs that ABK is able to produce on its own production lines. The READY TO ORDER slabs not only stand out for their striking decorative effects on glossy and satin surfaces but also offer an excellent quality-to-price ratio.*

# WIDE&STYLE MINI

Gres porcellanato / Pasta Bianca da Rivestimento  
Porcelain Tiles / White body wall tiles

L'esperienza dei "wallpaper" su grande lastra Wide&style ha permesso ad ABK di sviluppare un rivoluzionario progetto di rivestimenti che unisce l'espressività di una palette composta da ben dieci colori, con pattern decorativi che si sviluppano in parete come tessuti o carta da parati. In una dimensione ampia ma facile da gestire anche negli spazi più piccoli, il formato 60x120 cm si integra perfettamente con la produzione in gres porcellanato di ABK.

*The experience gained with Wide&Style large-format wallpaper-effect slabs has enabled ABK to develop a revolutionary wall covering collection that combines the aesthetic appeal of a palette of ten colours with decorative patterns that extend across the wall like fabrics or wallpaper. The 60x120 cm format, a large size that is nonetheless easy to handle even in the smallest of spaces, integrates perfectly with ABK's porcelain tile range.*

## IMBALLI PACKAGING

### NUOVI SISTEMI DI IMBALLO

L'innovazione del progetto lastre si esprime anche attraverso la parte logistica del progetto. ABK Group rivoluziona il sistema di imballaggio delle lastre ed è a oggi l'unica azienda che ha portato il sistema a cavalletto impilabile alla dimensione di cm 75x284x147,5 (lastre 120x280), 75x168x109 (lastre 80x160).

Questi i principali vantaggi offerti:

- essendo impilabile permette di ottimizzare gli spazi all'interno dei magazzini.\*
- la profondità di 75 cm consente di sfruttare a pieno il volume di carico dei container (3 pallets ne occupano perfettamente la larghezza).
- Il posizionamento verticale del prodotto garantisce una maggiore protezione delle lastre durante le fasi di trasporto.
- facilità le operazioni sul cantiere in quanto le lastre si trovano già posizionate in verticale, il materiale è facilmente ispezionabile e removibile per l'installazione.
- le dimensioni complessive del cavalletto consentono maggiori spazi di manovra all'interno dei locali di posa rispetto alle casse tradizionali e agevolano il sollevamento del materiale mediante mezzi meccanici (gru-montacarichi).
- è caratterizzato da un sistema di reggettatura che consente di liberare anche 1 solo collo alla volta, senza compromettere la stabilità del materiale che rimane sul pallet, evitando così il rischio di rotture. Le lastre dovranno essere liberate rispettando la sequenza opposta rispetto a quella con cui sono state confezionate, quindi iniziando dall'ultimo collo regettato.

### NEW PACKAGING SYSTEMS

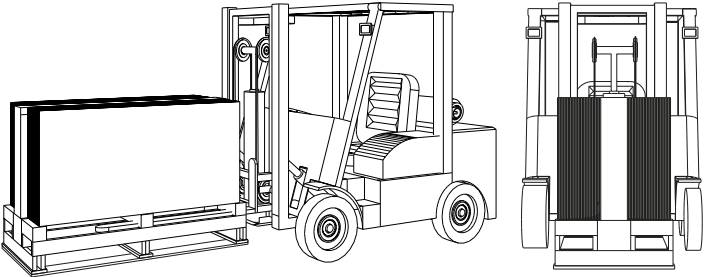

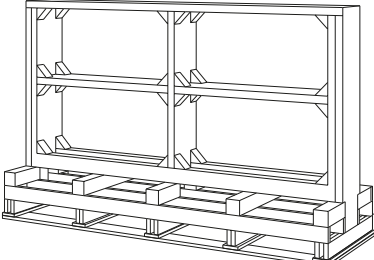

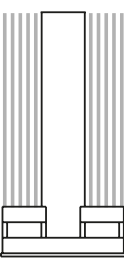

Innovation in slab's range is also reflected in the project's logistics. ABK Group has revolutionised the packaging of ceramic slabs and is the only company to have expanded the stacking rack pallet system to the 75x284x147,5 (slabs 120x280), 75x168x109 (slabs 80x160) cm size.

This has the following advantages:

- stacking optimises the use of space in warehouses.\*
- the 75 cm depth enables full use of container load space (3 pallets fit perfectly side by side). The vertical positioning of the product better protects the slabs during shipping.
- it facilitates work on site, since the slabs are already positioned vertically, making the material easy to inspect and remove for installation.
- the overall size of the rack pallet provides greater space for manoeuvring in the installation area in comparison with conventional crates, and also makes it easier to lift the slabs mechanically (with a crane or lift).
- the rack pallet system employs strapping which allows the user to remove a single package at a time without affecting the stability of the other packages on the pallet, thus minimising the risk of breakage. The slabs must be released from the packaging by reversing the packaging sequence, i.e. starting with the last package to have been strapped on.
